

CLICK COMPUTER AND ACCESSORIES

STAKEHOLDER REQUIREMENTS & SIGN-OFF DOCUMENT

Simple Client Platform • IT Support • Device Repairs • 24/7 Client Management

Business / Platform	Click Computer and Accessories	Document Type	Requirements & Sign-Off
Stakeholder	Prince Morazo	Date	2026/08/26

1. Purpose of the Platform

The proposed platform for Click Computer and Accessories shall provide a simple and easy-to-use way for clients to request computer and electronic support. The client-facing application must avoid unnecessary complexity and allow a client to quickly select a device, select the problem or service required, submit a request and receive assistance.

2. Key Stakeholder Requirements

ID	FUNCTION	STAKEHOLDER REQUIREMENT / ACCEPTANCE
REQ-01	Simple Client Application	The client-facing application shall be simple, clear and easy to understand. A client should be able to request assistance with minimal steps.
REQ-02	Client Registration / Login	Clients shall have a straightforward method to access the platform and submit or track their support requests.
REQ-03	Device Menu	The platform shall provide a simple menu containing supported devices such as Cellphone, Laptop, Printer, TV and other approved electronic/computer equipment.
REQ-04	Problem / Service Selection	After selecting a device, the client shall be shown relevant hardware repair and software support options.
REQ-05	Laptop Example	Selecting Laptop shall display options such as Screen Repair, Battery Repair, Motherboard Repair and Software/OS Support.
REQ-06	Simple Request Submission	The client shall be able to select the problem, add a short description, optionally attach supporting information and submit the request.
REQ-07	Request Status	The client shall be able to see whether a request is received, assigned, in progress, completed or otherwise updated.
REQ-08	24/7 Active Client Management	A designated staff member / support operator shall be actively available 24/7 to monitor client requests, respond to clients and manage incoming support needs.
REQ-09	Client Communication	The platform shall provide a clear way for the active support operator and clients to communicate regarding support requests.
REQ-10	Technician Management	Support requests shall be assignable to technicians who can work on the relevant repair or technical issue.
REQ-11	Administrator / Manager Controls	An authorised administrator shall be able to monitor requests, manage users, assign work and oversee the service operation.
REQ-12	Notifications	Relevant users shall receive notifications when important request events occur, such as a new request, assignment or status update.
REQ-13	Asset / Device Information	The system shall allow relevant device or asset information to be recorded where required for support and repair management.
REQ-14	Supporting Evidence	Clients and staff shall be able to provide relevant screenshots, photographs or documents when these are necessary to understand a technical

		problem.
--	--	----------

3. Simple Client User Journey

STEP 1	STEP 2	STEP 3	STEP 4	STEP 5
Open App	Select Device	Select Problem / Repair	Submit Request	Get Help / Track Status

Design principle: The client should not have to navigate through complicated menus. The main screen should make the most common actions immediately visible.

4. Device & Repair Structure

DEVICE	SUPPORT TYPE	EXAMPLES
Cellphone	Hardware / Software	Screen, Battery, Charging Port, Motherboard, Software/OS
Laptop	Hardware / Software	Screen, Battery, Motherboard, Keyboard, Software/OS
Printer	Hardware / Software	Paper Feed, Cartridge/Ink, Print Head, Power, Driver/Software
TV	Hardware / Software	Screen, Power Supply, Main Board, Remote/Controls, Software
Other Equipment	Hardware / Software	Options defined according to approved equipment categories

5. 24/7 Client Management Requirement

The stakeholder requires the platform to be supported by an active person on a 24/7 basis. This person will monitor incoming client requests, respond to clients, provide initial assistance, escalate technical problems where necessary and ensure that requests are not left unattended.

24/7 support responsibilities:

- Monitor incoming client requests.
- Respond to clients and acknowledge new requests.
- Provide first-level assistance where possible.
- Assign or escalate technical work to the appropriate technician.
- Monitor outstanding and urgent requests.
- Keep clients informed about progress and status changes.

6. Scope & Change Control

The stakeholder confirms that the requirements in this document represent the agreed direction for the Click Computer and Accessories platform. Any significant requirement added, removed or changed after sign-off should be documented and approved by the stakeholder and project team before implementation.

7. Stakeholder Review & Sign-Off

By signing below, the stakeholder confirms that the requirements have been reviewed, are understood and are accepted as the requirements baseline for the Click Computer and Accessories platform.

Stakeholder Name & Surname	Prince Morazo
