Stakeholder Acceptance Form

Phase 2: System Design

Project	Click Computer and Accessories System
Module / Group	ITC327W Work-Integrated Learning, Central University of Technology, Free State / Group T
Date of meeting	08 / 10 / 2026
Stakeholder name and position	Prince Morofo
Group members present	Mafunisa T, Nosenga B

Purpose

The group met the stakeholder to show the Phase 2 designs of the system and to get feedback and acceptance before development starts.

Designs shown to the stakeholder

- Flutter mobile app screens (wireframes)
- ASP.NET web app pages (wireframes)
- How users move between the screens and pages
- What users can do, and the information captured and displayed

Stakeholder comments or requested changes

1. Logo: Update the logo to reflect Click Computer and Accessories branding.
2. Automatic Ticket Assignment: Automatically assign tickets to the correct technician based on device type
3. Location and Contact Details: Add the company's location and contact information.
4. System Design: Ensure the web and mobile applications are user-friendly and consistent.
5. Ticket Tracking: Allow clients to track ticket progress and receive updates.

Stakeholder decision (tick one)

[X] **Accepted:** I accept the Phase 2 designs as presented.

[X] **Accepted with changes:** I accept the designs if the changes above are made.

[ ] **Not accepted:** The designs must be reworked and shown again.

I confirm that the designs were shown and explained to me and that this decision is my own.
